

4 Drawer Time Lock Pedestal

The TellerShield four-drawer pedestal safe complete with cash drop facility with time delayed locking feature designed for use where secure cash/document handling is required.

Specification

Top Drawer fitted with seven-lever slam lock and used to hold metal Cash Can

Second Drawer fitted with nine loose dividers to store docketts, playing in slips etc. with stationery space behind.

Third Drawer with Drop Cash system - front of drawer space used for additional storage. Rear of drawer incorporates a drop chute facility. Upon closing this drawer, any cash deposited in this section is then transferred into the secure time delay bottom drawer for instant security.

Bottom Drawer with Time Delay Lock

Fitted with a time delay lock. Audio visual indication using LED and Buzzer (3 min delay and 1 min opening window). To gain access to money deposited within this secure environment, the time delay lock on the drawer front must be activated.

Optional Cash Can fitted with lockable removable lid with two metal lifting straps and incorporating variable plastic colour coded note and coin storage.

Dimensions (mm)

Pedestal: 620 high x 410 wide x 500 deep
Cash Can: 335 long x 295 wide x 130 deep
